

AgriLink Equipment  
306-759-2002

March 23, 2020

To Our Valued Customers,

As the situation surrounding COVID-19 continues to evolve and information, recommendations and best practices change, we at AgriLink Equipment continue to evaluate and revise how we do business in the current environment. We are committed to staying open and being available to you, to support your farming operations, but at the same time, we must ensure the health and safety of our employees.

As of March 23, 2020, AgriLink Equipment will be restricting access to **employees only**. During this time, all departments will remain staffed and operational. Please call ahead to discuss how we can best serve you.

For your convenience, we have updated our website, [www.agrilink.ca](http://www.agrilink.ca) with links to parts/service manuals for our major vendors.

Thank you for your patience and understanding as we take precautionary measures to increase the safety of everyone. As the situation continues to evolve, our practices will follow suit.
